- A community running on telegram helping MHT-CET students through mock tests, admission procedure guidance, etc. My job is to mentor aspirants and manage all the social handles and website and design promotional content.

PROJECTS

PORTFOLIO WEBSITE UI | FIGMA

Project Link

- Created the UI of a personal portfolio website. The project contains all the details regarding professional projects and skillset. Created a prototype of the website through which the user can navigate through various menus.

OTT STREAMING WEBSITE UI/UX | FIGMA

Project Link

- Created a UI/UX design for OTT streaming platform. Made a prototype where the user can navigate through two options i.e. Movies and TV shows. Also created a horizontal scrolling bar where the user can check various movies or TV shows available.

MUSIC PLAYER APP UI | FIGMA

Project Link

- Created a UI design for music player app named 'Blynk Music'. The project contains a login page first where user can get to the home menu and also designed the UI for the songs being played. The user can navigate through various songs and home menu.

FOOD DELIVERY APP UI/UX | FIGMA

Project Link

- Created a UI/UX design for a food delivery app named 'Foodzilla'. The project contains a sign in and a sign up page which further navigates to the menu page having various food items in the form of scrolling menu.
